August 2021 - Present

Senior Full-Stack Software Developer

- Created several frontend React components, backend REST API routes, and Mongoose models for a Motor Carrier Safety Compliance and am currently managing its production site and MongoDB database.
- Created the entire UI and necessary backend models/controllers for the site's following features: Promo Codes, Homepage Dashboard, Password Recovery, Task Assignments, Tractor/Trailer Assignments, Register User and Payment Validation, Automated Invoice Creation with Cron Jobs, and Drug Test Requests.
- Fully integrated the Quest and Authorize.NET SOAP APIs into our production code base.
- Communicated with our client to build their requested features and advised on any possible issues.

Idaho State Tax Commission - *Boise, ID*

February 2016 - March 2020

Tax Auditor

- Calculated state individual tax deficiencies and prepared audit findings defending my position.
- Handled over 200 audits simultaneously, increasing the state's income by over \$80,000 a year on average.
- Met with taxpayers to communicate tax code ambiguities guiding them to an appropriate plan of action.

Projects

[FreeBay Website](#)

February 2021 - Present

- Developed a full-stack product bidding website using React, Node.js, Express, and PostgreSQL.
- Created a UI using CSS and Material UI allowing users to search for products, view users profiles that displays their bids/products won, and a homepage showing the most recent bids and products won.
- Built the [backend and API](#) with Node.JS, Node-PG, and Express that contains REST routes that: supply a JWT upon validation, query product data, post bids, and updates the database when an auction is over.
